

## Valentines Deco – CNL Additional Instructions

There are 3 sets of hearts. One set is fill design, one set is lacey fill that can be used alone or with mylar, and the third set is appliqué.

**Appliqué designs** have red as a placement stitch and blue as the tack down stitch. Look at the following instructions for specific designs as the final satin stitch is not always stitched immediately after the tack down stitch.

**ATWCLC0317** – the outer part of the design stitches first, then the placement and tack down for the right side of the design, then the placement and tack down for the left side of the design, then the satin stitch for the right side is stitched followed by the left side of the design.

**ATWCLC0320** – all four sections will start with a placement stitch, followed by a tack down stitch. The satin stitches follow starting with the top two lines through the middle of the heart, then the lower line, and finally with the satin stitch on the outer edge of the heart. The outer hearts stitch last.

**ATWCLC0323** – the design stitches with placement stitch, tack down stitch followed by satin stitch for each side heart individually.

**ATWCLC0326** – the outer crescents stitch first, followed by the placement stitch, tack down stitch and satin stitch. The final stitching is the outer balls.

**ATWCLC0329** – The lower part of the arrow stitches first, then the outer feather border, followed by the placement stitch, tack down stitch and then the satin stitch. Then the center circle stitches followed by the remainder of the arrow.

**The lacey designs**, if using mylar, lay mylar onto top of fabric prior to the lacey section stitching.

**ATWCLC0318** – apply mylar prior to starting to stitch design, remove excess after color 2 stitches.

**ATWCLC0321** – apply mylar prior to starting to stitch design, remove excess after color 3 stitches.

**ATWCLC0324** – stitch color 1, apply mylar prior to second color, remove excess after it stitches, stitch color 3, then apply mylar prior to stitching fourth color.

**ATWCLC0327** – stitch color 1, apply mylar prior to second color, remove excess after it stitches, the stitch color 3

**ATWCLC0330** – stitch first two colors, apply mylar prior to 3 color, remove excess after it stitches, then stitch colors 4 and 5.
